Principal Backend Engineer

divya.krishnamurthy@zenvora.example | Bengaluru, India

Professional Summary

Principal Backend Engineer with 17 years of professional experience, specialising in Event-driven architecture, Go and PostgreSQL tuning. Known for owning outcomes end to end and for working closely with customers and colleagues from other functions.

Experience

Principal Backend Engineer — Zenvora Technologies Pvt. Ltd., Bengaluru
Jan 2016 – Present

- Chief architect of Project Atlas.
- Cut p95 API latency from 840 ms to 210 ms.
- Wrote the internal API design guidelines.

Senior Software Engineer — Maple Logic
Jul 2013 – Jan 2016

- Designed the event pipeline for a payments gateway.

Software Engineer — Tessera Cloud
Jul 2009 – Jun 2013

- Built multi-tenant APIs for a cloud storage product.

Key Projects at Zenvora

- **Project Atlas** (Aug 2022 – Mar 2024): Chief architect. Break the original Django monolith behind Pulse into Go and FastAPI services running on Kubernetes.
- **Project Sentinel** (Apr 2024 – Sep 2025): Secure development and code review controls. Achieve ISO/IEC 27001 certification and a SOC 2 report, required by larger enterprise and US customers.
- **Project Ember** (Aug 2025 – Dec 2025): Service-level changes. Cloud cost optimisation (FinOps): rightsizing, savings plans, storage tiering and per-team cost allocation.

Education

- B.Tech Information Technology, VIT Vellore, 2009

Skills

Event-driven architecture, Go, PostgreSQL tuning, API design, Mentoring
