Mohan Krishna

Senior QA Automation Engineer

mohan.krishna@zenvora.example | Hyderabad, India

Professional Summary

Senior QA Automation Engineer with 13 years of professional experience, specialising in Playwright, API contract testing and k6. Known for owning outcomes end to end and for working closely with customers and colleagues from other functions.

Experience

Senior QA Automation Engineer — Zenvora Technologies Pvt. Ltd., Hyderabad
Aug 2019 – Present

- Built the Playwright framework used across web and mobile parity tests.
- Wrote the contract tests that de-risked Atlas cut-overs.
- Built the golden-set evaluation harness for Sage.

QA Engineer — Brightpath Softech
Jul 2013 – Jul 2019

- Built a Selenium framework used by 4 product teams.

Key Projects at Zenvora

- **Project Atlas** (Aug 2022 – Mar 2024): Contract and regression testing. Break the original Django monolith behind Pulse into Go and FastAPI services running on Kubernetes.
- **Project Lighthouse** (Jun 2024 – May 2026): Automation. Rebuild Pulse Mobile as Pulse Mobile 3.0 in Flutter, with a redesigned inbox and the Zenith Design System.
- **Project Sage** (Sep 2025 – present): Evaluation harness. Zenvora Sage, a retrieval-augmented AI assistant that drafts and resolves Tier-1 support replies inside Pulse, with human review for sensitive categories.
