Sneha Hegde

Backend Engineer

sneha.hegde@zenvora.example | Bengaluru, India

Professional Summary

Backend Engineer with 7 years of professional experience, specialising in Go, Python and REST and webhooks. Known for owning outcomes end to end and for working closely with customers and colleagues from other functions.

Experience

Backend Engineer — Zenvora Technologies Pvt. Ltd., Bengaluru
Jun 2021 – Present

- Built Ledger's GST e-invoicing integration.
- Delivered the Atlas notification and webhook services.
- Building the Insights API for Project Nova.

Software Engineer — Zephyr Mobility
Jul 2019 – May 2021

- Built trip-event APIs for a ride-sharing platform.

Key Projects at Zenvora

- **Project Atlas** (Aug 2022 – Mar 2024): Notification and webhook services. Break the original Django monolith behind Pulse into Go and FastAPI services running on Kubernetes.
- **Project Nova** (Jun 2026 – present): Insights API. Pulse Insights: churn-risk scoring and an analytics dashboard that tells SME owners which customers need attention.

Education

- B.E. Computer Science, BMS College of Engineering, Bengaluru, 2019

Skills

Go, Python, REST and webhooks, Kafka, GST e-invoicing
