1. Objective

To decide what to build based on customer evidence, and to launch features that Support and Sales are ready for.

2. Applies to

Product managers, designers and anyone proposing product changes.

3. Stages

1. Discover: customer research and problem definition.
2. Define: written product requirements document (PRD) with success metrics.
3. Design: concept and detailed design reviews with Engineering and QA.
4. Build: feature flags on, QA involved from the first sprint.
5. Launch: launch checklist completed.
6. Learn: review metrics 60 days after launch.

4. Customer research

Every product manager holds at least 5 customer interviews per quarter. Customer participation requires consent.

5. Launch checklist

- Documentation and help-centre articles ready.
- Support training delivered at least 5 working days before launch.
- Security and accessibility checks passed.
- Marketing brief approved by the Marketing Manager.
- Pricing approved if changed.

6. Roadmap and sunsets

The roadmap is reviewed quarterly by the leadership team. Retiring a feature needs 6 months' notice to customers, and ending a beta needs 90 days. Pricing changes need the approval of the CEO, CRO and CFO.
